

FROM THE DESK OF

GLEN E TRINKA DDS

May 3, 2021

Dear friends,

I would like to start by thanking each and every one of you for entrusting your dental health and care to me. For almost 35 years I've been blessed to be able to practice dentistry on a wonderful group of people in a truly beautiful town. The trust you have demonstrated over the years is humbling. It is with that humble attitude I have to ask for your trust in one more matter. That matter is the selection of my replacement! The years of practicing, while very fulfilling, have also been wearing on the aging body! The time has come to turn over the reigns of this awesome practice to someone with the energy, skills and integrity to carry on with what we've built. Searching for a replacement for oneself is not easy. This person will be caring not only for my patients but for my close friends, family and myself! They will also be leading my staff (whom are as close as family). To find a person of this caliber is not simple.....but, I am excited to announce, I have found her! Dr. Michelle Ament is an answer to prayer. We are on exactly the same page. Dr. Ament has impressed me with her skills, caring, kindness and enthusiasm. I am looking forward to becoming her patient as I'm sure you will too after you meet her for the first time. It is with true excitement that I turn over our care to Dr. Ament.

Again, thank you so much for your trust and friendship.

Sincerely yours,

Glen E Trnka, DDS

To the Patients of Dr. Trinka,

My name is Michelle Ament and I am honored to have this opportunity to introduce myself to my new family of dental patients. It is a privilege to provide care for Dr. Trinka's patients and the community. While getting to know Dr. Trinka and his practice philosophy, I was delighted to know how well our core values aligned. We both share the same passion for providing exceptional care and treating each patient like family. It is my goal to maintain a welcoming and positive environment to provide personalized dental care to you and your family.

I am originally from Michigan and attended the University of Detroit Mercy School of Dentistry. I gained advanced training through a General Practice Residency following completion of dental school and practiced in Michigan for several years. I found my niche when I moved to Washington and practiced in Seattle for three years before being introduced to Dr. Trinka. I am currently completing my Fellowship through the Academy of General Dentistry and taking advanced cosmetic courses to stay current on the latest in dentistry. I serve as an active member of the Washington State Dental Association and the American Dental Association. I have a beloved dog named Koda, who you may see around the office in the coming months.

Dr. Trinka and I will do everything possible to ensure that we will have a smooth transition and deliver a high quality of service. Rest assured that our excellent staff will continue at the practice. They have helped me transition to my new dental home and I am truly thankful to have their full support and call them my teammates! We are all dedicated to your comfort and excellence in your dental care. We wish Dr. Trinka the best in his retirement and acknowledge his outstanding contribution to the dental community. This is an exciting time for all of us, and we hope to maintain your confidence and trust in the practice. I look forward to meeting you and building a lasting relationship. Please feel free to reach out to our team with any questions.

Warm regards,

Dr. Michelle Ament
